Unexcised version of publication:

	Components	Running time
Feature:	bad1.mpg	0.15
Total running time:		0.15

Excisions: Not Applicable

Reasons for excisions:

Not Applicable

**Summary of reasons
for classification:**

The computer moving image file entitled *bad1.mpg* is classified as:
Objectionable.

The publication promotes and supports the use of urine in association with sexual conduct. The publication is a recording of urophiliac activity, where the participants experience sexual excitement by being urinated upon/and or swallowing urine. The publication presents this activity in a normalising manner, intending to give it legitimacy and encourage an arousal response in the viewer.

The classification of this publication interferes with the freedom of expression, as set out in section 14 of the New Zealand Bill of Rights Act 1990. This outcome is consistent, however, with Parliament's intention that publications falling under section 3(2) of the Films, Videos, and Publications Classification Act 1993 are deemed to be objectionable.
